COIN DOCTORING DEFINED

The Market in Depth

It is a very important week for the coin business as trading kicks off with the Orlando FUN show January 5-8. This numismatic gala, which has been held for decades in this time slot invariably begins with intense enthusiasm. There has not been a major show of this magnitude since August, when the ANA's World's Fair of Money was conducted, which is the industry's largest annual show. To many, the FUN gathering is equal in importance to the market with the August ANA show, given the size of the crowds and number of dealer tables. The FUN show is truly a national event, attracting dealers and collectors from both coasts and sets the bar for the year.

This year there is no real pre-FUN show though groups of dealers are already in Orlando conducting business privately. Heritage will hold floor auctions from January 4-7, with Platinum Night beginning on January 4. In the January 5 session is the famous Dr. and Mrs. Steven L. Duckor collection of $20 St. Gaudens, and many are among the finest known. This sale has been extensively advertised and exhibited since last August's World's Fair of Money. Among other Platinum Night highlights is the finest known 1776 Continental Dollar, graded MS67 by NGC; and one of only nine known 1829 Large Date Capped Bust Half Eagles, this one graded PR64 by PCGS and verified by CAC. These are important coins, especially as trophy rarities, and along with bullion represent the hottest areas of the market at this time. Sales of these rarities are expected to give the coin market a boost in capital along with a new spirit of enthusiasm, as did the sale of the Brasher Doubloon in December for $7.4 million.

The beginning of the week saw an upsurge in the price of precious metals with Gold Spot once again breaking up through the $1,600 price level this week, after having been in the $1,500s during late December. Silver has retraced its steps back to around the $30 mark, after having fallen from more than $32 in early December to nearly $27 later that month. Platinum has climbed back up to more than $1,400, after falling from the $1,500s in mid-November to the $1,300s by year's end, while Palladium has been bouncing between the high and low $600s during December to reach the mid-$600s early this week.

In late August, a committee of respected numismatists was formed to develop an industry acceptable definition of coin doctoring after a July 2010 definition created in partnership with NGC and PCGS, was rejected by PNG members last January. The Coin Doctor Definition Committee's mission is to deliver a clear and concise definition of coin doctoring written for collectors and dealers alike that is easy to understand and enforce. A 900 word working draft found on coindoctordefinition.com will be completed and presented to the PNG Board and Membership for approval at the January 2012 FUN show.

This Week's Market

CENTS THRU HALVES: The glut of activity here is negative, primarily from a lower Silver Spot. Virgin Island Quarters remain in demand with buyers paying Bid for both P and D rolls.

MERCURY DIMES: Mercs are beginning the new year on a very quiet note with neither a decline nor a gain this week. However, expectations from Heritage's FUN Show auction are high.

WALKING LIBERTY HALVES: Every single date and mintmark are needed at Bid in MS60 or better through 1933-S. The same holds true for the remaining dates in MS63 or better condition. Two moderate declines marked the year's start for the Walker segment, with the 1942 in MS64 and the 1943-D in MS65 each shedding $5. First year of issue, 1916, is needed at higher levels in AU50 thru MS64 and the high buyer will take quantities.

DOLLARS: Generic Morgan Dollars in MS65 are $145, just $10 over what they were Bidding this time last year, and well down from their year-time high Bid at over $200 back in late April when Silver Spot appeared as if it would plow through the $50 per ounce mark. Although many common dates in MS66 are declining moderately this week, their gains by over 50% since the start of last year is most impressive. Generic Peace Dollars in MS64 and MS65, despite their share of volatility, are still up during this same time frame by as much as 30% and 26%, respectively.

PROOF SETS AND MINT SETS: Proof Sets aren't making too much noise with the 2004 and 2005 Silver Quarter Proof Sets down to $27.50 Bid. Among the many plus signs, the only Mint Set to drop is the 2009 issue falling to a Bid of $18.

COMMEMORATIVES: Bidding activity among the Silver Commems produced only mildly positive results, but at least this segment was spared the afflictions of the all too often seen discounting activity that seemed to have subsided during this first week of the new year. A dozen rolls of Texas Commems are needed, and dealers are paying $100 per coin to acquire them. Classic Gold Commems remain steady, albeit soft.

TYPE: Bids for each and every Mint State Type issue remained sedentary this week while Type 3 Three-Cent Silver Pieces in PR60 thru PR65 are strongly desired lately, as reflected by heightened Bid movement for this issue in each grade column. Bids are being ratcheted up for much of the Mint State and Proof Type material offered in Heritage's FUN Auction this week, including a couple of Chain and Wreath Cents of outstanding quality. Hundreds of Circulated 3¢ Silvers are needed at $30 each for Type 2 and 3, while Type 1 examples are fetching $20.

GOLD: Gold Spot concluded 2011 up by 10% and is ascending back up to the $1,600 per ounce level. Market observers are bracing for what, possibly, could be another volatile year for generic Gold Type material. Bids for $10 Libs With Motto and Indians in MS63 continue to descend for the third straight week, the latter issues having lost 11% in four weeks. Common date Double Eagles have rebounded in MS62 thru MS64, yet continue to possess extremely low premiums over melt.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of [illegible] to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices particularly the pre 1941 issues. [illegible] bring lower prices. [illegible] Walking Liberty rolls (particularly the [illegible] issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

$1.38 MILLION FOR CHAIN CENT
$56 MILLION HAMMERED AT FUN AUCTION

The Market in Depth

The coin market began 2012 in an upbeat mode with frenzied activity at the FUN show auction and a hectic bourse. There was no pre-show or pre-auction this year, and not one, but two Heritage Platinum Night sessions in the official auction. The sale realized just shy of $56 million with 18 coins fetching a quarter million or more. Two coins highlighted the sale by bringing $1.38 million each – the unique 1829 $5 Large Date PCGS, CAC PR64 and the 1793 Chain Cent graded PCGS, CAC MS65 Brown, which is an all-time record high price for a Large Cent sold at auction. This Chain Cent last sold at public auction in July of 2004 for $391K. The last time the 1829 Large Date Proof Half Eagle sold at auction was in January of 1996 for $209K.

On the bourse, trading was active in the $500 to $10,000 range, but for those looking for strictly graded, high-end pieces there was not much to pick from. At some point in the market cycle, prices have to trend upward to start shaking out some of these high-end coins that are in strong demand at this time, but are probably also in tight hands. And when that happens it's bound to push along prices for solid, high grade, less expensive vintage coins. On Sunday, tables were manned more attentively this year as show officials more sternly threatened to clamp down with location changes for those who vacate tables early. Overall, the show got high marks, with one dealer giving the event an A to the selling side, a B to the buying side, and an A+ for schmoozing.

Coin shops continue to be busy across the country with established clients along with new customers coming in regularly to buy and sell bullion related items including: coins, bars and scrap, in fairly equal amounts both ways, in addition to other common coins pulled from change and accumulated over the years. High quality fake one ounce Sunshine Silver bars with the proper Prooflike finish are beginning to turn up in shops, and are believed to be coming from China. Along with increased publicity received by this market, established collectors' homes have been robbed around the nation. Crime is expected to increase as the economy lags, and as the world-wide financial crisis continues over ballooning debt, causing precious metal prices to rise even higher.

This Week's Market

MERCURY DIMES: Auction results can be more indicative of which coin market segments have more strength over others than merely reflecting overall market conditions. Beyond the auction scene, wholesale activity had little, if any, impact upon this series since our last report.

WALKING LIBERTY HALVES: An impressive selection of better-date Walkers were offered during the FUN sale, but many realized rather soft prices. Fortunately, this softness is having more of a neutralizing effect upon this segment rather than one causing any serious destabilization.

DOLLARS: Generic Morgans in MS63 and MS64 resumed their descent to lower ground this week as most issues shaved just $1 off their Bids. Paradoxically, nine of these issues in MS65 are partially recovering their previous week's losses. 1885-O MS64DMPL Dollars are continuing to fluctuate and are back down to $325 Bid as they were back in early November. A precipitous decline of $1,500 for the rather elusive 1893-O in MS64 should make this issue particularly appealing, considering the near 12 times higher Bid for its peers in the next highest grade. Generic Peace Dollars in MS63 are in step with comparably graded Morgans, adjusting lower in reaction to weakening conditions.

PROOF SETS AND MINT SETS: With Silver still hanging around the $29 an ounce mark, dealers aren't in any hurry to Bid higher for Silver Proof or Mint Sets or sell for less. Plenty of Clad Mint Sets are being offered at discounted prices.

COMMEMORATIVES: Bidders appear to be diverting some of their attention away from Classic Commems this week to focus more on other material in light of all the FUN show related activities. Nonetheless, a Grant with Star Half, graded MS67 by PCGS with CAC approval, a combined pop 12 coin with none finer, managed to fetch $48,875 in Orlando. Within Modern Commems, buyers are looking for most BU and Proof Silver Dollars in OGP from 1990-date at or near Bid.

TYPE: Some dealers are trying to lure more Copper-Nickel Indian Head Cents their way in MS63 and MS64 with higher offers for each, while Capped Bust and Liberty Seated with Stars Half Dimes in MS65 are being pressured downward. One dealer is seeking a quantity of Liberty Seated Halves in Fine at higher levels and will accept examples with light cleaning. Those popular 1873-1874 Halves with Arrows in MS64 are trading on softer terms now, incurring a $250 decline, while Bid for their peers in PR65 sank by $300. Bid decreased by another $100 for Barber Halves in PR65 now at $3,000.

GOLD: $675 is the new high offer for Choice $5 Libs without spots, toning, flecks or grunge, while XF examples are being sold for $420 in quantities. The sale of the famed Duckor Collection of $20 Saint-Gaudens was among the most closely watched material that was auctioned in Orlando. At least 14 of the Saints realized six-figures, including one of only two known 1921 examples graded MS66, both by PCGS, which hammered in at $747,500. Generic Double Eagles in Circ grades are among the Gold Type material benefiting from this week's higher Gold Spot.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

HIGH-END MARKET STRONG

2010 PROOF SET: LOWEST MINTAGE SINCE '58

The Market in Depth

It's back to business as usual now that the holidays and the FUN show are over. The coin market is relatively stable, but with strength showing at the high end of the market and moderate weakness being experienced at the lower levels. Coins in CAC stickered holders are preferred by buyers at the higher end, but there is still not enough of the right material available with this endorsement. This is the direction the big money is going, and many of these better coins are being sold at auction as shown by the $56 million realized in Florida. The Euro has been falling in comparison to the Dollar, and precious metal prices have strengthened as the credit ratings of France and eight other Eurozone nations were downgraded last week. The European debt crisis continues to be of great concern to the world economy, even while officials have been able to kick the can down the road. However, the huge debt crisis of the US seems to be overlooked by investors, as life goes on as normal and economists focus on the short-term. Another factor affecting precious metals is the Iranian threat to hamper traffic in the Strait of Hormuz, a major oil trade route.

A plea of guilty was entered by a former ANA collections manager to the theft of about 300 historically significant rare coins and other numismatic objects from the ANA Money Museum which are valued at nearly $1 million. The manager only held the position for three months, from January through March, back in 2007. Subsequently, the coins were sold, both privately and through auctions. This is a concern to both dealers, who've handled these coins, and to collectors, who've purchased them. Once identified, they will probably be subject to return to the ANA as their rightful owner. The coin doctoring definition was sent back to the committee headed by John Albanese to be refined and to be taken up again by the PNG at the Central States Numismatic Society convention in Schaumburg, IL, which is scheduled for April 19-21, with PNG day being held on April 18. Stack's Bowers will hold a sale January 24-26 in New York consisting of selections from the Guttag Family and Walking Liberty Tribute collections. Major shows are coming up during each of the next three months. Long Beach is next, February 2-4, Baltimore after that, March 22-25, with the ANA National Money Show being held this year in Denver, May 10-12.

PCGS is holding a grading contest at the Long Beach show, with the winner receiving a Gem $20 Saint-Gaudens. Kids will have a contest of their own broken into two divisions, pre-high school and high school with the winners being rewarded with an MS65 Morgan Dollar. Ira and Larry Goldberg will hold a pre-Long Beach auction January 29-February 2 at their offices in Los Angeles featuring the Helem Estate of over 950 US Gold coins. A few PCGS highlights approved by CAC from this sale include an 1882 $3 Princess graded AU55; an 1811 Capped Bust to Left $5, Small 5 in AU55; and an MS63 1873 $20 Liberty Open 3.

This Week's Market

CENTS THRU HALVES: Clad Kennedy Half Dollars continue to be hot with the 2010-S spiking 60% this week on reports of having the lowest mintage ever. San Francisco Unc Lincoln Cent rolls from 1970-S thru 1974-S are needed in quantity at higher levels.

MERCURY DIMES: Supporters of this segment remain cautious and are not offering more than current Bid. Discounting is absent here with no declines to report.

WALKING LIBERTY HALVES: Bidders are not competing as aggressively for generics as they had been just a few months ago in their quest for Walkers. Even a few key-dates are contending with slight market weakness, as demonstrated by the prices realized for the scarcer specimens appearing at recent auctions.

DOLLARS: Many generic Morgans in MS63 are inching back up to retrieve their modest losses from last week, while a handful of better-dates in higher grades slid by small measures. Those eye-catching 1881-S issues in MS65DMPL slid back down to $750 Bid, but there were two other noteworthy and more serious declines: The 1900 in MS67 fell by 34%, while the 1902 MS64DMPL took a near 20% drop. Peace Dollars in VG and Fine resumed their seesaw motion with a mild upswing again this week. 1934-S Dollars in MS66, with a combined pop of 39 and none finer, are Bidding 35% higher at $28,000.

PROOF SETS AND MINT SETS: 2010-S Clad Proof Sets are no longer being offered by the Mint and Bid has jumped by 30% on the news that they have the lowest mintage at 1.1 million since 1958 when 875,652 Proof Sets were made. A few of the Prestige Proof Sets took a hit, dropping a little.

COMMEMORATIVES: Several Silver Commems continue to weaken as there are now fewer Bidders willing to commit, considering how abruptly some examples have cascaded downward within a relatively short period of time. Gold Commems seem to be buckling to discount pressure as Bids for the 1917 McKinley and Grant with Star Gold Dollars in MS63 retreated by 10% and 6%, respectively.

TYPE: Copper mania has taken hold of the Mint State Type segment, as Coronet Large Cents in MS63RB and MS64RB, as well as Indian Head Cents in MS63BN thru MS65BN, are among the favorites this week. Twenty Cent Pieces in MS64 were discounted after a solid example sold at auction for a song. Among Proof Type, Three Cent Nickels in PR65 edged slightly higher, and Type 3 Three Cent Silver Pieces in PR60 thru PR65 each added yet more muscle to their Bids as they had two weeks ago. Shield Nickels with Rays in PR65, which don't often get bargained down, fell back by $175.

GOLD: $2½ Indians spiked 5% in MS63, and are up for the third straight week in MS64, increasing $45 while their peers in Gem shed $75. Gold Spot is up over $1,650, a level not seen since December 13 of last year. Generic $20 Saints in VF20 thru MS65 and Type 3 Libs thru MS63 are all up in reaction to this higher Gold Spot.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

LONG BEACH TO HOST EXPO, AUCTION
PNG DEALERS WORK WITH EBAY

The Market in Depth

The coin market is finishing January with strength in the upper tier of rare coins and the bullion market is rallying, following some softening in December. After dipping below $30 during mid-December and staying there, then dancing around the $30 benchmark last week, Silver began climbing solidly higher to now close over $32. Gold is on the same track, once again crossing over the $1,600 mark, and advancing closer to $1,700 than $1,600. Platinum and Palladium are also on the same path. Platinum has moved aggressively higher to $1,561 from below $1,400 in late December, while Palladium has charged higher from the low $600s to the high $600s during the same time. Of course all of this positive activity lends strength to the overall rare coin market.

Collecting habits have been changing right along with the current disparity between the high end and "middle-class" segments of the collector coin market. There's been a long-term trend, in both areas, away from traditional collecting by date and mintmark, as we've known it, to collecting by design types. It's possible that this trend has been putting some negative pressure on better dates, even though they may still be strong – perhaps, otherwise, they'd be stronger. Although, there's still been great interest in Registry Set building, run by PCGS and NGC. This allows the very advanced collectors through beginners to showcase their acquisitions for their collecting peers to see and compete against.

The Professional Numismatists Guild has announced that as part of eBay's commitment to buyers and sellers in the coins category, they are collaborating with PNG to ensure the experience on eBay meets industry standards. eBay will be setting up a program to better educate collectors about the PNG and its member dealers. Several eBay representatives were in attendance at the recent PNG members meeting in Orlando. One of the first updates eBay is making to the coin category is a policy decision to remove replica coin listings from eBay. Effective February 20, new replica listings and replica re-listings will be disallowed.

Ira and Larry Goldberg will host a pre-Long Beach sale in the Beverly Hills area Jan 29-Feb 2. Long Beach Coin and Collectibles Expo will follow, Feb 2-4. Heritage is the official auctioneer with their sale running through Feb 5. Some of the many highlights are listed above.

This Week's Market

MERCURY DIMES: Some fresh Merc material will be featured during Heritage's auction event concurring with this year's first of three Long Beach Expos February 2-5. Competition for nice high grade Mercs with Fully Split Bands remains noticeably strong. At least one dealer is currently in need of Unc 1934-D and 1936-S Dimes in roll quantities.

WALKING LIBERTY HALVES: Another advance for 1943-S Walkers in MS65, the second in two weeks, enabled these to reclaim their Bid as it stood during this segment's rally from the first half of last year. A Gem 1918-D will be closely watched when it crosses the block in the upcoming Long Beach sale.

DOLLARS: Significantly higher Silver Spot is giving a boost to Morgan Dollars in VG. In the MS64 column, the 1879-S (Rev. of '78) and 1881-CC, each made partial recoveries of their losses from last week, while the 1893-O regained $250 of the $1,500 lost two weeks ago. Other than the 1921, early Peace Dollars in Fine are advancing for the second straight week, but Bids for common-date examples in MS63 have receded back to below $45. Two originally toned 1928-S issues, both graded MS65 by PCGS, one with a CAC sticker on its first-generation slab, will emerge among the Dollar lots offered during the Long Beach auction.

PROOF SETS AND MINT SETS: Silver Quarter Proof Sets from 2004 thru 2009 are up this week, as are the 2008 Clad Quarter Sets now at $25. No "S" Cent Proof Sets from 1990 dropped to $4,250. 1963 and 1964 Silver Mint Sets have jumped up to $40 and $39.75, respectively.

COMMEMORATIVES: Select Silver Commems are being sought-after in various grades at moderately higher Bids this week. A succession of plus signs within multiple grade columns appear for such issues as the Albany, Delaware, Lynchburg, and Roanoke, all of which are regaining some ground lost in prior months. 1937 Arkansas PDS Sets in MS65 are being discounted now by 10%, however, while Connecticut issues in MS66 are down further by another $15. Classic Gold Commems remain steady throughout this week's trading activities. ASE Anniversary Sets from '06 & '11 are strong.

TYPE: Coronet Large Cents in XF are $10 higher, as Bid for these were bound to get pulled up somewhat by the considerably higher offers posted for Mint State examples. Liberty Nickels in PR65 have attracted more attention but have yet to regain all of their losses from last year. Long Beach will serve as another testing ground for Mint State and Proof Type, as a diversity of high-grade and low pop material, from early Coppers to Seated Liberty and Trade Dollars, is being offered at auction.

GOLD: Slightly higher Gold Spot is having little, if any, positive impact upon scarcer Gold Type material such as $3 Indian Princesses in MS65, which are down now by $2,500 in a one year period, and Bid for the most common Type II $20 Libs in MS64 declined by $1,000 this week. Generic $20 Saints in MS65 are back over $2,000 Bid for the first time in five weeks. Spreads between Bid and Ask have tightened for much of the generic material, especially common Double Eagles.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

EXCITEMENT SURROUNDS LONG BEACH EXPO
STACK'S BOWERS HAMMERS $6 MILLION

The Market in Depth

While Gold Spot had crept higher during most of January, from the $1,600 level at the start of the New Year to the $1,650 ballpark the week before last, it took a big leap January 26, to reach solidly above the $1,700 benchmark, and is now at $1,738. However, Silver fell so low during December, that it has risen on a more aggressive trajectory during all of January from lower than the $29 level at the New Year to brush the $34 mark late last week, forming a "V" chart during the past 60 days. Silver now stands at $33.23 per ounce. The European debt crisis is the major driving force at this time for Gold, a safe-haven investment. On the other hand, a weaker Euro currency has strengthened the Dollar, so Gold has softened a little, early this week. This action is all taking place on top of a weakening Dollar foundation that's a huge growing debt bubble itself, now about to rise above the $16 trillion level. Four years ago the total U.S. public debt was around $9 trillion, and a decade ago it was only about $3 trillion. If our economy remains stagnant, the inflationary pressure this debt bubble stimulates is bullish for long-term Gold, and presumably for the other precious metals.

This is Long Beach week and, as usual, a major Pre-Long Beach sale is in progress by the firm of Ira and Larry Goldberg Auctioneers in their offices in Los Angeles. A strong dealer crowd has been the tradition at the Goldberg sales. An official Long Beach Expo sale is also being conducted this week by Heritage. For decades the Long Beach Expo has been a major draw for dealers and active collectors from all over the country. However, in the current recessionary environment, with a focus on bullion activity and a relatively soft collector coin market, other than for high-end material, interest in the Long Beach venue from far reaches has declined some. However, the show's owner, Coin Universe, is putting more concentration into the Long Beach Expo, after having closed the Santa Clara Expo last year. Additionally, Coin Universe has expanded with the opening of a new PCGS office in Hong Kong, giving the company a presence in Asia which complements its presence in Europe with its Paris office.

Stack's Bowers realized $6 million January 24-26 in New York City. Top lot for this auction was a 1787 Connecticut Copper Muttonhead, which realized over $109K. We have included some of the many highlights at right.

This Week's Market

CENTS THRU HALVES: Kennedy Half Dollars remain on fire with insatiable demand remaining unquenched. Select State Quarter Rolls are a bit higher as dealers look to add a few to inventory.

MERCURY DIMES: Unc 1934-D Mercs are still needed and Bid has been increasing to meet this demand. Details regarding the Palladium one-ounce bullion coin depicting Ms. Winged Liberty are still up in the air. There remains hope that this will be the year the coin actually gets minted.

WALKING LIBERTY HALVES: Common date Walkers in MS64 fell back a bit shaving $30 off the short-set, which now Bids under $1,500. After losing $35 two weeks ago, 1941-S issues in MS65 adjusted back up to $720 Bid, while comparably graded 1942-D examples got a $5 upward jolt.

DOLLARS: A slew of VG Morgans are partaking in the ascent to slightly higher ground along with their peers in Fine, as Spot Silver increases by $1 per ounce from last week. Examples of the 1890-O in MS64 and MS65 are among the strongest gainers, moving up by 6% on average. Circulated Peace Dollars are advancing for the third straight week, with Fine specimens now 7% higher since the middle of last month.

PROOF SETS AND MINT SETS: Proof Sets are stronger with dealers willing to pay at or near Bid for the majority of Silver and Clad Proof Sets. One dealer is paying more to pick up 1986, 1987, 1989, and 1990 Prestige Proof Sets to fill holes in inventory. Only one Mint Set is making noise—the 1979, now higher at $4.50 Bid.

COMMEMORATIVES: The frenzy prevailing among Silver and Gold Commems has more to do with the proliferation of the changes appearing within this segment than the extent of a rise or decline in Bid for any individual issue. Delaware Halves in MS60 thru MS64, Lynchburgs in MS60 thru MS63, and Roanokes in AU thru MS63, are adding to their advances from last week. Continuing volatility has been wreaking its preponderantly negative toll upon both series. Bid for 1917 McKinley $1 Gold issues in MS65 took a 15% plunge.

TYPE: Gem Dimes, both Barber and Liberty Seated with Legend, fell back moderately again while all other Mint State and Proof Type issues retained good overall support at current Bid. Some early Coppers offered during the Stack's Bowers Americana sale realized strong prices including a 1795 Lettered Edge No Pole Half Cent, graded PCGS AU55BN, which realized $12,650.

GOLD: $3 Indian Princesses in MS65 appear to have not yet found their nadir at an even $12,000, as they proceed to sink even lower by another $150. These little golden jewels have a combined pop of 781 with 336 graded finer. As Gold Spot remains well above the $1,700 per ounce level all this week, generic $20 Saints in VF thru MS65 got a good boost along with their Type III $20 Lib cousins within this same grade range, save for those in MS64 which are declining for the third straight week. High-Relief $20 Saints are needed at elevated levels in MS65, quantities welcome.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BEACH BEATS EXPECTATIONS

PROOF HALF ADDS TO $11.5 MILLION AUCTION TOTAL

The Market in Depth

Last week's Long Beach Expo was a solid, successful show for many dealers. Some reported having their best Expo ever, and many were impressed with the high activity of set-up day. Nearly 1,000 visitors arrived when the show opened to the public, which added to the buzz on the floor. One dealer we spoke with said he already spent over $500K on raw collector coins. Some complained there wasn't enough nice, high-end material available, but is this really a reflection of the show or the market? Dealers won't have these kinds of coins in inventory if the owners aren't selling. And these days, when they do sell, such material usually ends up in major auctions, not on bourse tables. Simply put, quality, high-end coins are being held for the long-term by collectors with strong hands. Traffic at the grading service tables was also steady and active – evidence of a flourishing coin market. The Long Beach Expo is a show that's been operating for half a century and endures through all kinds of market cycles. It's a well-known show with many followers – both dealers and collectors. Heritage hammered over $11.5 million in their auction. Making the top lot was an 1839-O Capped Bust Half Dollar, graded NGC PR65, which brought in $299K. This coin last sold through the Goldbergs in October of 2008 for $373,750. With a Pre-Long Beach auction by Goldberg totaling $6.9 million, this made for quite a healthy numismatic week.

On the other coast, Whitman is again gearing up for their Baltimore Coin and Collectibles Expo which will be held March 22 to 25, along with a major auction by Stack's Bowers that will include a Rarities Night session. Additionally, Expo staff is alerting the trade that the Maryland governor, Martin O'Malley, has included a measure in his budget proposal last month to repeal the state's sales and use tax exemption for coins and precious metals. This is a battle that has continued on from last year in which a bill was defeated to accomplish a similar overturning of this exemption. The trade has to remain vigilant about similar efforts around the country, especially as states struggle to keep their budgets balanced under difficult economic circumstances. Currently, about three-quarters of the states enjoy sales tax exemptions for coins and precious metals.

This Week's Market

MERCURY DIMES: Merc material appearing at auctions in recent weeks has been getting good reception from Bidders. However, a few low auction results required only a single reduction here.

WALKING LIBERTY HALVES: Current Bid offers continue to flow into the Walkers arena with strong momentum, particularly for most early and key-dates. A mildly toned 1918-D specimen, graded MS65 by PCGS, with a combined pop of 40 and only 5 finer, sold for $27,600 during Heritage's auction in Long Beach.

DOLLARS: Many of the generic Morgans in MS63 and MS64 that posted declines four weeks ago are doing so again, essentially erasing most of their marginal gains they achieved between then and last week, and as many as eight common dates in MS65, including early S-Mint issues, are Bidding lower at $142 again. 1879-CC issues in MS64, which advanced rather aggressively last September, are now down by $500 over just a three month period. However, market-makers can't seem to get enough of those 1893-CC specimens in this grade, pushing these issues up now to a Bid of $9,250. Toned Morgans are picking up steam lately. Generic Peace Dollars in both MS63 and MS64 continue to sag. A Gem 1922-S Peace Dollar in PCGS plastic was being shopped around at the Long Beach show even after it was identified as a possible fake.

PROOF SETS AND MINT SETS: Dealers are looking to pick-up some early Proof Sets from 1952 thru 1955 in their original unopened boxes and will pay Bid plus $30 to $50 for them. A handful of 1970s Clad Proof Sets are offered at perceived bargain levels resulting in minus signs. Mint Sets aren't showing too much activity this week.

COMMEMORATIVES: Early last October, Lafayette Dollars in MS64 surged by $400 and then were Bid up by an additional $80 one month later. Bid for these issues dropped by $180 this week and now stands at $2,650, just $50 above that of one year ago. Also, Spanish Trails in MS66 have now declined 17% in the same amount of time, losing $125 just this week, while York issues in comparable grade are trying to approach the $300 level again. 1917 $1 McKinley Gold Commems in MS65 recovered most of their loss from last week as their Bid regained $200.

TYPE: Mint State Seated Liberty Dimes have been teetering somewhat these past few weeks, and the recent West Coast show and auction activity certainly didn't bode well for Stars variety issues in MS65, as they fell back by 4%, while 1873-1874 dated with Arrows examples in MS64 dropped 11% to a Bid of $1,250. All Proof Type material held firm and remains unchanged for the second straight week. Recent auction activity confirms that the market for those unofficially released and elusive pre-1858 Proofs, from Classic Head Half Cents to Liberty Seated Dollars, remains remarkably strong.

GOLD: Generic Gold Type material will have to get by on the merits of its historic lore and sustenance. Many examples in XF thru AU are up slightly over last week, with $10 Indians in MS65 bouncing back to Bid $3,200. The most actively traded issues in MS63 and MS64 are either sedentary or still grappling with downside pressure. Premiums for all Gold, both old and new, remain low, with Proof Gold American Eagles trading for Spot plus $70.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

NO SUBSTITUTE FOR COIN SHOWS
BULLION RELATED MATERIAL STRONG

The Market in Depth

It is a strong coin market in the upper segment, but one may not know this judging by the many shows where more common material, mostly related to bullion, seems to be taking the limelight. Auctions houses, now dominated by two numismatic behemoths, along with the Goldberg firm also pulling its weight, are transferring a huge volume of coins via public sales. Online-only auction sites, like Teletrade, Great Collections, and eBay are also contributing to the evolution of acquiring coins in today's market. Teletrade recently launched an updated website now free of hidden reserves. Many collectors attend major coin conventions to participate in the associated auction, often because that's where the high-end coins are found. Today's collectors frequently take advantage of auction house credit lines to buy coins from their sales. Collectors are also buying from home since it's so easy to Bid online or make a purchase through the internet, especially those living in rural areas. However, coin shows simply can't be replaced. The hands-on action, camaraderie, and the thrill of haggling, are very important aspects of the hobby for so many participants. There is just no substitute for such qualities within the fraternity. St. Louis Numismatic Association's 48th annual coin fair held last weekend drew more than 2,200 visitors with over 950 on Friday alone. The show featured regional as well as many major dealers from all around the country. This is a club run show by an active association that had more than 100 members in attendance at last month's meeting.

Precious metals traded in a narrow range during the past week. Profit taking in the markets has occurred, and the Greek debt situation has progressed toward a resolution, but with protestors setting dozens of fires in Athens because of the austerity measures imposed on Greece by other Eurozone countries participating in the bailout. Still, Gold has been well above $1,700 since late January, and Silver has been over $33 per ounce during the same time frame. Platinum, though still trading below Gold, is well above $1,600, as it has been all month.

The Numismatic Consumer Alliance Inc., founded by John Albanese, assisted in the recovery of over $1.1 million over the last eight months. This total is based on eight cases which led to settlements for buyers who purchased coins for far more than what they were worth. Since the NCA became operational in 2005, it has recovered over $6 million. In Southern California, there has been an arrest involving thefts of coin shipments by UPS. The Los Angeles Police Department has asked victims who have lost packages shipped through UPS during the past three years to contact the LAPD Commercial Crimes Division.

Vegas is the focus for many dealers as the PCGS members only show runs February 29 thru March 3 in Sin City as well as the 49th annual Las Vegas Numismatic Society coin show scheduled for March 1 for set-up day, thru March 4 at the Palace Station Hotel. There will no doubt be some crossover attendance between these two events.

This Week's Market

CENTS THRU HALVES: BU rolls of 1996-W 50th Anniversary Dimes are being offered for $425 in original cello. Kennedy Half Dollars are still on fire with nearly every date needed in quantity, with dealers paying a minimum of 20% over face.

MERCURY DIMES: This segment remains firm and steady overall with no Bid alterations to report in either direction. A pair of overdates were found by one veteran dealer while sorting through 90% junk in front of the TV this past weekend.

WALKING LIBERTY HALVES: Broad Bid support remains omnipresent throughout the entire series. A raw short-set in Choice is being shopped around this week for just under Bid at an even $1,000.

DOLLARS: Quite a few generic Morgans in MS63 that averted the wave of declines last week saw their Bids lowered to fall at parity with those of their peers at the $52 level, while common dates in MS65 each gained a couple of dollars. Those 1893-CC issues in MS63 have been moving upward at an easy and steady pace, achieving a gain of 27% since a year ago with another $250 added to their Bid. A steep 21% drop in Bid came about this week for those not so pretty but important 1901 issues in AU. Generic Peace Dollars in MS63 and MS64 continue to grapple with another week of volume discounting, settling back down to Bids of $40 and $50, respectively, while the 1927 in MS63 regained a third of its prior week's loss.

PROOF SETS AND MINT SETS: Buyers are busy looking to purchase date runs containing at least one Set from each year, both Clad and Silver at or near Bid. Bids for 1956, 1976-S Bicentennial, and 1979-S Proof Sets all jumped higher.

COMMEMORATIVES: Alabama 2X2s in MS64 are continuing in their decline losing 13% since the beginning of February. 1936-D San Diego issues in MS65 and MS66 recovered partially, demonstrating that a good high-grade Silver Commem could still receive some positive attention after heing ignored for so long. Bids for Spanish Trails in MS66 dropped another $50 now down by 10% in just two weeks. Gold Commems all remained well behaved and steady.

TYPE: Market weakness softened demand for Liberty Seated Half Dimes with Stars in MS65 just last month and is now doing so for their MS64 peers, leaving them with a $400 Bid. That weakness spread over into the MS63 column, moderately reducing 1853 dated Liberty Seated Quarters With Arrows and Capped Bust Halves which both now Bid at $1,675. Another $15 decline for Liberty Seated Dimes with Legend in PR64 has reduced these issues by 14% since last July, but Bid for those popular Barber Dimes in PR65 regained $50 while Barber Quarters in PR63 firmed up just a tad.

GOLD: Common date $20 Saints are lower in all grades up through MS66 and are once again below $2,000 in Gem. Type I Indian Princess Gold Dollars in MS65 are back up to a Bid of $3,800 where they stood last November. $2½ Indians of comparable grade still have far to go to completely recoup the 20% they lost through the prior year. Type III $20 Libs in MS65 are up just a tad to $3,460 Bid.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of the r[illegible]s in the [illegible] to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Wash[illegible] rol[illegible] d[illegible] or [illegible] together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are [illegible] the CDN.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 8 **February 24, 2012** *. . .a Friday morning report on the Coin Market*

TWO-TIER MARKET IN PLACE
SILVER UP 24% SINCE YEAR'S START

The Market in Depth

Heavy competition and narrow precious metal volatility has resulted in slimmer trading activity in common material since the beginning of the year, even though Silver Spot is up 24%. Not as much is coming into shops, and fewer collectors are buying what dealers have purchased in the last year. Because dealers are stocked up on most collector coins, or they can easily buy from other dealers for specific needs, this is the exact situation in which prices could soften for such material. Some of this is happening, at least in the form of price discounts in wholesale trades. Collector demand is also waning for modern Proof and Mint Sets for example, as are State Quarters, including 90% Silver Proofs. Most who had an interest in this area have since completed their sets; and of course thousands, maybe even millions of collectors, have built multiple sets from change or from their banks, including roll sets. The market is simply overloaded with these coins. Many dealers report they are just throwing them into the junk Silver bins, and have taken much of this Clad inventory to their banks for deposit.

Discounting and slimmer demand are also taking their toll on better coins, except for premium quality material, especially if approved by CAC, which has been trending higher in price. Average or "ho-hum" quality specimens that are easy to replace are feeling the pinch. And those with problems, like dark toning, weak strikes, unsightly contact marks, spots, etc., are getting hit hard. A good amount of this material is sticking around dealers' inventories for long periods of time. Some dealers have even admitted to actually having some examples downgraded by PCGS/NGC to get more realistic grades, helping to make them "go away" from inventory, albeit at commensurate prices. If they can reinvest that cash into other inventory that's profitable, they're better off in the long-run. This trend is likely to pick up steam as the market weeds out coins in which their grades have been maxed out. Such scenarios are akin to attractive AU58s bringing higher prices than unsightly, like-kind MS60 and MS61 coins that are all hacked up by contact marks. Truly, CAC and Plus grading have begun a long-term trend of cleaning up the market in this way, creating a two-tier scenario, which is an overall healthy direction. This may be likened to the direction that occurred during the 1980s and 1990s when a transformation took place with third-party grading becoming mainstream. Many dealers are currently in San Francisco attending the two day Schuyler J. Rumsey auction of the Broadus R. Littlejohn Collection of US coins, February 21-22. This sale is being hosted by a company that is not a mainstream numismatic auctioneer, and has more of an estate sale-like feel, similar to the Alex Cooper auction held in Baltimore last month which included many new faces from the group of crossover participants.

A brutal home invasion robbery took place in Ascension Parish, near Baton Rouge, Louisiana last weekend where two men—father and stepson—were killed, and a third victim, the wife and mother, is in critical condition. A safe was stolen containing approximately $500,000 worth of Gold coins, though specifics remain unknown.

This Week's Market

MERCURY DIMES: Mercs saw another week's trading result in neutrality, with neither a plus nor a minus sign indicating movement within this segment. Premium quality semi and key-date material, especially with Full Bands, remains more desired than available.

WALKING LIBERTY HALVES: A multiplicity of offers and the solid current Bid support remain well distributed among early-date Walkers in Mint State. Although the Bidding activity itself continues at a brisk pace throughout this segment, Bidders are exercising considerable caution with regard to their offerings for the later-date, more generic issues.

DOLLARS: While the mostly positive fluctuations appearing among the Bids for some better-date Morgans may not be very significant, they, nonetheless, are encouraging to see. There has been a noticeable increase in current Bid support for virtually all issues of this series within the MS63 through MS65 grade range. DMPL Dollars are holding up quite well, but the fairly common 1881-O issues in MS64DMPL are continuing to lose their gleam and are down now by 37% since this time last year. Mildly upward movement was achieved by 1904-S cartwheels in Choice, gaining 3%, and comparably graded generic Peace Dollars may have finally found their bottom by rebounding somewhat along with the key-date 1928 issues in MS65, which recovered $200 of their $350 decline from late last October. Silver has ascended to $34.41, a level not seen since mid-November.

PROOF SETS AND MINT SETS: Four of the Prestige Proof Sets are Bid higher. 1999-S Silver Proof Sets are at $105 Bid with a dealer looking to snatch up 150 at this higher level and is also looking to pick up 50-100 2000-S thru 2002-S Silver Proof Sets and has pushed up Bid to get them. Mint Sets aren't showing any plus or minus signs, though buyers are paying Bid or near for just about every date.

COMMEMORATIVES: Isabella Quarters in MS65 and Sesquicentennial Halves in MS64 fell back just slightly, but the remainder of the Silver Commems managed to maintain adequate current Bid support to at least enable this segment to assume some resiliency. At least four of the $1 denominated Gold issues in various Mint State grades firmed up in demand to post slightly higher Bids as auction participants and wholesalers are still attempting to acquire much of this material at a discount, especially in grades MS63 through MS65. 1905 Lewis & Clark Gold Dollars in MS64 gained $100, while $50 Pan-Pac Octagonals in MS64 are Bidding $1,000 higher this week.

TYPE: Firmness and steadiness prevail within both Mint State and Proof Type. Diversity of what the coin market has to offer is best represented by the material comprising these segments. There appears to be enough interest among collectors and market-makers alike to sustain current Bid support for each and every Mint State and Proof issue across all denominations and varieties.

GOLD: The increases among generic Gold Type are psychologically important to the health of this market, especially now since Gold Spot's ascent over the $1,750 per ounce price level is once again a reality. At least one dealer is hot for $3 Gold Princesses in XF40 and has pushed Bid $25 higher in an attempt to acquire quantities.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer to Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

PRECIOUS METALS PICK UP PACE
$276K FOR 1856-O $20 LIBERTY

The Market in Depth

Precious metals took an upswing last week, and the price gap between Gold and Platinum has once again narrowed. Traditionally, Platinum has been higher than Gold, only to see Gold surpass Platinum last year in early August, as Platinum weakened in part because of its lower industrial use in a sluggish economy. The gap widened to its greatest extent in early December of 2011 with $219 separating the two precious metals, and is now at about $60. Gold has advanced by roughly $200 to the high $1,700s since the beginning of 2012, with some analysts predicting that new all-time highs will be tested sometime this year. Silver has also come on strongly since the first of the year by advancing from around the $28 level to where it's at now, solidly above $35. Platinum is currently trading back above $1,700 per ounce, a level not seen since early last fall, and after dropping below $1,400 around the holidays. Palladium is once again above $700 after dipping below $600 just prior to the end of last year.

Even with this precious metal price action, it's still not enough to make the general news, alerting the public to higher prices and causing them to dig out more coins and jewelry to bring into shops to sell. Still, the overall market remains steady with no major price trends moving higher or lower. One important exception is the upper end of the coin market with high-priced, high-grade rarities still in demand by well-heeled collector/investors. In this sector, CAC verified coins have been emerging as the product of preference, over Plus graded material by PCGS and NGC without CAC approval. It comes down to what buyers are asking for, and this is where CAC stickered slabs are a standout on the bourse and in major auctions. The *Certified Coin Dealer newsletter,* commonly referred to as the *"Bluesheet,"* now lists sight-unseen Bids for PCGS/NGC Plus grades, and for CAC approved slabs.

ICTA is warning dealers to have a fallback bank in which to have an additional checking account than normally used, in case you need more time to respond if your main bank suddenly makes demands regarding Anti-Money Laundering plans and written annual audits. ICTA is also encouraging dealers to maintain vigils in their localities regarding second-hand dealer laws. The Schuyler J. Rumsey auction, held February 21-22, brought in $4.35 million. Top lots, all PCGS graded, include an 1856-O $20 Liberty, XF45, which realized $276K; an 1854-S $2½ Liberty, F12, bringing $173K; and an 1879 $4 Flowing Hair Stella, graded PR58, which hammered for $109K. Dealers are in Las Vegas attending the PCGS members only and LVNS show which began February 29. Heritage will hold an auction in New York March 8-11 featuring the Dr. John Y. Harper, Jr. Collection. Included in this sale is a 1795 Jefferson Head Cent, graded VF25 by NGC and a 1792 Half Disme, graded Fine, Details. Later in the month, March 22-25, the Baltimore Expo will take place with an auction by Stack's Bowers. Maryland still maintains a sales tax exemption on coins and bullion, but the threat of a repeal is ongoing.

This Week's Market

CENTS THRU HALVES: Early Clad State Quarter rolls continue to suffer as demand wanes causing supplies to grow. Silver sensitive material is up in tandem with Spot, approaching a five month high.

MERCURY DIMES: A 1942/1 graded MS65FB, will be auctioned in New York March 8-11. This coin has a combined pop of 11 with only 7 finer, less than half the pop of comparably graded D-Mint issues, which seem to get more popular recognition. All Bid changes within this segment are positive, yet modest.

WALKING LIBERTY HALVES: Walkers continue into a fourth straight week of averting any Bid declines, suggesting that this segment may have bottomed and any further movement from here on will lean towards the positive side. 1940-S and 1941-S issues in MS65 each advanced moderately as all other late-dates stood firmly in place.

DOLLARS: Several generic and better-date Morgan and Peace Dollars in XF, Fine, and MS60 are gaining strength, and are needed in quantity. Gem issues such as the 1890-S, 1891-CC, 1891-S, and 1892 persist in their incremental advances. Semi-key Peace Dollars in MS60 are also sought now at higher Bids, with 1924-S examples advancing by 9%. Presidential Dollars are receiving renewed attention on the heels of the US Mint's announcement that this series will no longer be minted for commerce.

PROOF SETS AND MINT SETS: With Silver Spot approaching $36 an ounce, the Silver Quarter Proof Sets from 2004 to 2010 have all gone up, as well as a few of the Silver Proof Sets. 1962 thru 1964 Mint Sets are also higher, now Bid at $43. The US Mint has proposed changing the fineness of Silver Proof Sets from .900 to .999 matching those of most other countries and cutting costs.

COMMEMORATIVES: Interest in Silver Commems remains mixed, though market participants are now expanding their Bidding activities to include attempts at acquiring many of the most common issues in XF thru MS60, in addition to those in higher Mint State grades. Declines were limited this week, but Bid for Missouri 2X4 issues in MS66 was significantly reduced by $1,000 and their plain-field variety peers in MS64 sustained a 5% pull-back. Vermont issues in MS63 and MS64 regained some buoyancy, and Pan-Pac Gold Dollars in MS64 rebounded to a Bid of $775 as they were late last November.

TYPE: This segment as a whole has remained devoid of any seriously gyrating fluctuations these past several weeks, and this stability has sustained current Bid support for so much of the material. Support remains consistent for such Mint State issues as Classic Head Large Cents in Brown, Two Cent Pieces in Red-Brown, and Reduced Size Capped Bust Dimes, as well as for large-ticket items such as Small Eagle Draped Bust and Large Size Capped Bust Quarters. Bronze Indian Head Cents and Two Cent Pieces in PR64 and PR65 of all color designations remain extremely popular and desirable.

GOLD: Circulated Type 2 $20 Libs are off a bit as a result of poor auction performance. Generic $20 Saint-Gaudens in all grades up thru MS65, as well as several fractional issues in VF thru MS62, are especially benefiting from a higher Spot as Gold appears to be heading towards the $1,800 per ounce level once again.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions, you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

THE COIN COLLECTOR'S SURVIVAL MANUAL® SEVENTH EDITION

by Scott A. Travers

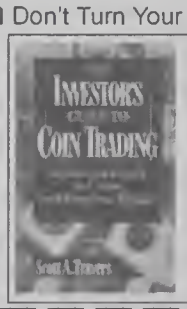
"The gold standard for coin books on consumer protection and investment."
–Ed Reiter, author, *The New York Times Guide to Coin Collecting*

PREPARE FOR 2012 AND BEYOND! Scott A. Travers reveals shocking new secrets of our changed world and tells how you can prosper and avoid even the smallest mistakes in the treacherous coins and precious metals marketplace. This totally rewritten straight-forward guide candidly examines all of the issues needed to survive the global financial collapse and examines the controversies of playing the "crack out" game with third-party encapsulated coins, the dangers of online auctions, and coin doctoring.

1,286 consumer protection caveats give you the most candid advice on how to buy and sell coins profitably, whether it's a sleeper found on the bourse or a multi-million dollar rarity seen at auction. Detailed photographs of coins with genuine and difficult-to-detect artificial toning give you unprecedented side-by-side comparisons.

Illustrated with more than 260 state-of-the-art digital color and black and white images of coins, this 390-page guide packs a powerful, one-two punch. It combines a thorough update of earlier editions of *The Coin Collector's Survival Manual* with another of Travers' seven acclaimed books, *How to Make Money in Coins Right Now*. Both were bestsellers in their own right, and now both are available in a single, updated and timely volume. Among the topics covered in the new mega-book:

- ✓ **Everything you need to know about those tricky "+" or in-between grades**
- ✓ How you can capitalize on the gyrations of gold prices when buying rare, generic and "spread" gold coins. What specific coins you should buy when gold is moving up, and how to minimize losses when gold prices are falling.
- ✓ **Extraordinary insights and secrets of crack-outs and getting lucrative upgrades from third-party grading services. Well-known dealer Jim Halperin tells how he made millions in profits by resubmitting coins and reveals details of his ownership interest in NGC.**
- ✓ How to protect yourself when buying CAC-verified coins.
- ✓ **Exposing the pitfalls and avoiding the perils when buying coins through online auctions.**
- ✓ Detecting altered, counterfeit and "doctored" coins.
- ✓ **How the popular registry set programs have changed the numismatic market, and how to use registry sets to your advantage.**
- ✓ Fake PCGS and NGC holders featured in detailed photographic blow-ups
- ✓ **Comprehensive discussions by leading experts about tax consequences on buying and selling numismatic items, including record keeping, estate planning secrets, retirement plans and in-kind exchanges.**
- ✓ Updated chapter on financial privacy authored by attorney David L. Ganz.



This is the book about the coin business "you can't afford to be without." ***Newsweek***
"Should be read before a single coin is bought - and read again and again!" ***Coin World***
"Travers is fearless in revealing the behind-the-scenes realities of the coin dealing profession." ***About.com***
"A sensational read...the ultimate manual to get your money's worth." ***Rosen Numismatic Advisory***
"...if followed closely, it should help [you] do far more than just survive; it should point the way to prosperity." ***The New York Times***

Now you can survive, prosper and be safe in an unsafe world!

METALS CAUSE MOTION SICKNESS

"LITTLE PRINCESS" NOT A PROOF ONLY

The Market in Depth

Gold Spot took a major hit on Wednesday, February 29, after a speech by Ben Bernanke, dropping over $77 for a New York close of $1,710, then falling further in overseas trading, to below $1,690, around 5%, the biggest one day drop in about three years. Since then, Gold has been hovering around the $1,700 mark before dropping once again to $1,671. Silver fell to $32.74 from last week's peak of $37.14. Both metals haven't seen these lows since late January. No major coin shows have taken place since the Long Beach Expo a month ago, except for the small, but active, PCGS Members Only show in Las Vegas last week where strong buying and selling business was reported. The 49th annual LVNS show, which ran March 1 thru 4, in cooperation with the PCGS show, added to the excitement in Vegas, where precious metal volatility had little effect.

PCGS announced last week that it will certify the "Little Princess" 1841 Quarter Eagles as both Proof and circulation strikes. David Hall, Co-Founder of PCGS and President of Collectors Universe, Inc. explained: "This is a monumental decision on our part, and we have taken two years to reach the decision. The really interesting thing about the whole process is that this is not a unanimous point of view in the numismatic community. There are world class experts on both sides of this issue. Some of the smartest numismatic minds of all-time feel very strongly that circulation strike 1841 Philadelphia Mint Quarter Eagles were indeed minted. But there are also some of the best coin minds of all-time who believe only Proofs were struck." Stack's Bowers will offer the first PCGS designated circulation strike, graded XF45, lot #4266, in a public auction at the Baltimore Expo March 22-25. David Lawrence Rare Coins, along with eBay, will auction off a 300-piece collection of PCGS graded Lincoln Cents with a value of over $1 million. The sale will take place March 15-25. Collectors can view and even Bid on these coins at the Baltimore Expo.

The Numismatic Crime Information Center reports that home invasions involving thefts of coins and precious metals are on the rise, urging both collectors and dealers to be extra cautious. The latest was the brutal slaying February 18 in Ascension Parish, near Baton Rouge, Louisiana. The case is now a triple homicide and about $500,000 worth of coins were taken. Authorities and NCIC are interested in leads if any of the missing coins are offered for sale. Several of the stolen coins are listed herein. There were also a large number of Silver Eagles, many of them packaged by Littleton. A $5,000 reward is being offered for information leading to the arrest of those responsible for the murders.

This Week's Market

MERCURY DIMES: Bid for those rather scarce 1919-D issues in MS64FB dropped back by $300, despite expectations that they would have recovered somewhat by now from their dramatic plunge last November. These issues are down by 44% since then, and 1934-D Mercs in MS65FB were rattled with a 10% decline as the last four D-Mint issues in comparable grade encountered some market weakness as well.

WALKING LIBERTY HALVES: A state of equilibrium appears to be in place within the Walker segment, at least for now, as market participants continue to sustain current Bid support for all the early and later-date issues. A white short-set is being offered for $6,700, all graded NGC MS66, while a PCGS version is being offered for $7,500. Very Choice Mintmarked Walkers from the short set are still needed in quantities at or near Bid.

DOLLARS: Upward momentum continues for most of the Morgan series as many generic issues in MS64 defied the tendencies of a lower Silver Spot. Market-makers have tightened their spreads on these Very Choice generics with only $4 separating buys and sells. Dealers are beefing up their offers to acquire more of those popular Capped Die variety 1879-CC Dollars in AU through MS63, and 1892-CC cartwheels in MS65 advanced to more than recover their prior year's losses, with a Bid now at $7,300. Demand continues to drive up 1904-S issues in MS60 to where they now stand, some 23% higher since this time last year. A group of ten Carson City Morgans are being shopped around in PCGS MS62 for $200 each. Peace Dollars took a reprieve from the ups and downs of the market.

PROOF SETS AND MINT SETS: One TV supplier is looking for up to 500 each of most Clad Proof Sets from 1970-2010 at Bid. The 1976-S 3-piece Bicentennial Mint Sets are down to $18 Bid while the 2006 Sets have increased to a Bid of $10.

COMMEMORATIVES: Silver and Gold Commems came through this week fairly unscathed. Grant Memorial Halves in MS65 and MS66 teetered a bit, though, as each lost a moderate amount. Bid support persists for many Oregon and Texas issues in MS63 through MS66. Mildly circulated Pan-Pac $1 Gold issues in AU are now sought at a higher Bid of $1,300.

TYPE: Bronze Indian Head Cents in MS65BN are Bidding $80 now, and are up by 45% since a year ago. Civil War dated material, including Three Cent Silver Pieces and all denominations of Liberty Seated coinage, are especially popular now. Solid Bid support remains prevalent within both the Mint State and Proof Type segments. Barbers of all denominations remain solid in grades MS63-MS65 with buyers willing to pay a slight premium for quantities without duplicate dates. PR64 Barbers are also needed.

GOLD: Gold Spot reverted back down to well below the $1,700 per ounce level, as it succumbed to a profit-taking sell-off episode after a strong, but brief rally. $20 Saints in PR65 are up by 12%, and now Bid $70,500. At least one dealer is after MS62-MS65 common date $20 Libs graded Prooflike by NGC and is willing to pay up to a 35% premium over Mint State examples.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

$7.6 MILLION HAMMERED IN NEW YORK
PLATINUM SURPASSES GOLD

The Market in Depth

Platinum has surpassed Gold Spot for the first time after the rare occurrence of it falling below the yellow metal in September of 2011. Gold is now at $1,694 while Platinum is $1,702 per ounce. Demand continues to be strong for collectible rare coins, especially for the higher end material. Several dealers have been focusing on Proof Seated, Barber and other Proof coinage of the same era. Limited mintages are an appeal in this market segment with grades of Proof 64 and higher especially sought. Plus graded Proof coins are seldom seen while CAC verified vintage Proofs are much more prevalent but still scarce, and are being bought up by strong hands and held off the market. A few Registry Sets have recently become available which are sometimes broken up, and other times bought and sold intact. Complete date collections of these vintage Proofs are much more achievable than building an entire set of date and mintmarks. It could take a lifetime to assemble a complete set of circulation strike Liberty Seated Dimes, for example - and that may not even be possible for many collectors, even if they have the money. Some dealers and collectors have begun to recognize that Classic Commems did not really catch on during the current bull market as many other segments did. Early Commems experienced a very strong bull market run during 1989 before crashing, scaring off buyers during the shake-out of the 1990s. This is a very collectable series that often proves to hold the interest of those who catch the collecting bug. It is also relatively affordable with sufficient supplies outnumbering current demand.

Heritage			Price Realized
1857	Large Cent, CAC	PR65RD	$57,500
1885	Three Cent Nickel	MS65	$20,700
1805	Bust Dime, 4 Berries, CAC	MS66	$86,250
1942/1	Mercury Dime, CAC	MS65FB	$40,250
1853	Lib Std Quarter, A&R, CAC	MS65	$18,400
1916	Standing Lib Quarter	MS64	$26,450
1865	Lib Seated Half, Cam, CAC	PR66	$21,850
1921-S	Walking Half, CAC	MS63	$29,900

1885	$20 Liberty	AU55	$43,125

Five suspects have now been arrested in the gruesome murders in the home invasion and robbery of $500,000 in coins and bullion, near Baton Rouge, Louisiana. A partial list of the stolen coins that have yet to be recovered was published in our last issue. $150,000 in merchandise was stolen from a dealer's car while stopped at a restaurant after a Maryland show March 11. Most of the coins were in 2x2 self sealing holders labcled in red ink. A collection of Civil War Tokens and an 1863 Seated Quarter graded NGC PR65 were among the stolen items. ICTA reports that they are receiving calls almost daily from non-member dealers who are being notified by their banks of imminent account closure if they do not provide an AML plan and a recent independent review.

Heritage hammered nearly $7.6 million in their New York City auction. A 1795 Large Cent Jefferson Head graded NGC VF25 made the top lot of $184,000. We have included a few PCGS highlights herein.

This Week's Market

CENTS THRU HALVES: One Southern California dealer is looking to unload 100 rolls each of 1963 and 1964 Jefferson Nickels for just over face. Buyers remain hot for Unc Kennedy rolls at Bid or more as is the case for 1999-P.

MERCURY DIMES: Full-Band Mercs, especially those scarcer issues in extraordinary quality, can be real crowd pleasers at well publicized auctions. During a New York sale this past week, a 1920-D in MS66FB took in an astounding $8,625, while a 1930 issue in MS67FB fetched $7,475. Both coins were graded by PCGS and CAC approved.

WALKING LIBERTY HALVES: Early, key-date Walkers are in strong demand, as demonstrated by the auction prices realized in New York last week. A truly exceptional 1939 specimen, graded MS68 by PCGS, and stickered with the green bean, realized over $10,500.

DOLLARS: Three key-date CC Morgan Dollars in XF/AU are now being sought at higher Bids, but it remains to be seen if enough 1879-CC, 1889-CC, and 1893-CC cartwheels in these grades will emerge from elusiveness to fill the orders. While there were a few marginal declines, they were well outnumbered by the gainers this week as the Bid adjustments adhered themselves solely to better-date issues. Generics all took a breather, except for Peace Dollars in MS63 bouncing back up to a Bid of $43. One dealer is looking for a bag of Gem CAC Morgans and is offering $160K sight-unseen. 1999 Proof SBA Dollars are still needed at higher levels.

PROOF SETS AND MINT SETS: These annual sets are very active with dealers paying at or near Bid for both Silver and Clad types. 2008-S Presidential Proof Sets are now Bid 10% higher with at least one dealer looking to secure 50 sets.

COMMEMORATIVES: An increasing number of Silver Commems are being grabbed up in XF/AU grades at current Bid along with their Mint State peers. Although the trading activity is far from exuberant, it's at least enough to provide sufficient support to preclude any negativity. 1903 McKinley Gold Dollars in MS64, however, fell by $40, and are down now by 10% over the past six months.

TYPE: Bronze Indian Head Cents in MS65BN are moving higher for the second straight week, bringing these issues up by 35% over the past half year. Capped Bust Half Dimes in MS64 are rebounding, back up to a Bid of $1,100, while Barber Halves in MS63 and MS64 regain strength as well. Positive momentum within the Mint State segment spilled over a bit into the Proof arena, as Matte Lincoln Cents in PR64 made a slight advance, and Barber Halves in PR65 regained $120. But the recent poor auction performance of solid to PQ Walkers in PR64-PR65 caused these issues to sustain a moderate reduction.

GOLD: Even though Gold Spot is up $22 from last week, it remains below $1,700 per ounce. Mostly negative activity is the result of not crossing this psychological barrier. Gencrics, such as $2½ Indians in MS64 and MS65, as well as $10 Libs With Motto and Indians in MS63 and MS64, are all in decline for a second straight week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BALTIMORE BUZZ IN THE AIR
PRECIOUS METALS LOWER

The Market in Depth

A buzz is in the air this week among the dealer community that travels the major show circuit - the Baltimore Expo is taking place, now celebrating its 40th year. This show, held three times a year, is considered by most to be well run, and its east coast location draws from a large population base of collectors and dealers, many who don't venture out to west coast shows. However, the popularity of this show draws dealers from the Midwest and the opposite coast, as well the east. Dealer expectations are high for both the buying and selling side. No less than three groups of major dealers are already in Baltimore conducting business from their mini, private bourses in hotel ballrooms and the like. They are serving those dealers who want to get a jump on the action with first crack at purchasing new, fresh and original material as well as CAC and Plus graded coins. Quite often bullion prices affect the mood of coin shows, and lately precious metals have been in a moderate downtrend, after having risen in previous weeks. During last year's March Baltimore show, Gold was in the low $1,400s. Late December saw the yellow metal at $1,540 and today's Spot is $1,647. Silver was at $37.06 a year ago, then fell to $27.19 in December and sits at $31.81 today. Platinum was $1,745 this time last year, and has gained nearly $300 since its recent low of $1,366 in December, once again outpacing Gold. Expectations are high for the Stack's Bowers auction, which features a rarities night focusing on high-end material, similar to Heritage's platinum night. It will be interesting to compare the Stack's Bowers March total of last year, $9.9 million, to this year's outcome.

Other shows continue to be well attended locally and around the country, as was the Northwest Coin Show in Minneapolis last week. This Midwest regional show saw the public teeming around with crowds several persons deep at times. Many dealers were too busy to leave their booths to make it around the bourse floor to do business with other dealers. Less expensive coins sold well, but as has been the experience during these recessionary times, moderately priced coins sold, but were outclassed by the former and bullion related products. Even bullion business has slowed down for many dealers as the general public who've had this material to sell have already sold, or they're still waiting for higher prices, and many collector/investors who've wanted to buy have already done so.

David Lawrence Rare Coins will hold an auction along with eBay ending March 25, and those interested can view the coins live at the Baltimore Expo. This 300 plus lot sale includes Lincoln Cents from the fourth all-time finest collection listed in the PCGS Set Registry, many of which are CAC approved. Baltimore is the last major show until the 73rd Central States Numismatic Society Convention, scheduled for April 18-21 with an auction by Heritage. Being held in Schaumburg, IL, the show will kick off with PNG Day April 18 with the definition of coin doctoring being a major topic.

This Week's Market

MERCURY DIMES: Those rather tough to find semi-key 1925-S Mercs in MS65FB, with a combined pop of 87 and 34 finer, have dropped by $400, or 16%, this week due to disappointing auction results.

WALKING LIBERTY HALVES: Bids for 1941-S Walkers in MS64 and MS65 are continuing to diverge from one another, as those of the former grade have been gradually climbing while their peers of the latter grade have been declining by the same rate this past year. These issues in Gem dropped from $735 to $675, and 1944-S examples in MS65 have also veered to the downside after bouts with volatility these past several months.

DOLLARS: Generic Gem cartwheels sagged along with MS64 examples, while virtually every Morgan in VG, other than those that can be classified as truly scarce such as late-date CC and several S-Mint issues, is in moderate decline. The 1887/6 overdate Morgan in MS66, among the most curious issues of the series, has sustained a 26% drop since mid-December. Those sensational looking 1879-S cartwheels in MS65DMPL and those harder to find 1891 issues in MS64DMPL, each tumbled by 15%. Most Peace Dollars in VG and all common dates in MS63 lost strength resulting in numerous minus signs.

PROOF SETS AND MINT SETS: Silver Quarter Proof Sets from 2004 thru 2010 are down 4%, except for the 2009 set, which has an extra Quarter, and fell 5%. 1979 and 1981 Type 2 Proof Sets have hit a bump and fell a little this week. There is at least one dealer looking to get their hands on 400 1970 Mint Sets at $9.

COMMEMORATIVES: Silver Commems, having their worst week since the start of this year, were again beleaguered by the effects of a multiplicity of low retail auction prices realized for coins deemed solid for the grade. Grant Halves in MS65, Elgins in MS66, and Robinsons in MS64, are each down by about 10%, while 1926 Oregon and Roanoke issues in MS66 fell back by 13% and 12%, respectively. 1916 McKinley Gold Dollars in MS64 took a 12% hit, while Grant with Star issues throughout all grade columns are now Bidding lower than their comparably graded non-Star peers.

TYPE: Very scarce late 18th and early 19th century material that's being offered during the prevailing auction event by Stack's Bowers is getting most of the attention, along with the few early Coppers presently on view. Liberty Seated Half Dimes with Arrows in MS64 had a mild brush with negativity, now Bid $465. Barber Halves in MS63 and MS64 are needed in greater quantities, and these issues are rebounding to reflect slightly higher Bids. Proof Barber Halves in Gem, which sprang back by $120 just a week ago, couldn't pressure their peers in PR63 enough to stay in pace, as these issues fell down to a Bid of $950.

GOLD: Until Gold Spot demonstrates more resilience, generic Gold Type has little chance of rebounding much, if at all, as the metals and financial markets appear now to be in an almost inverse relationship with one another. $5 Indians in MS63 are down 19% in just two months to a Bid of $1,460.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

One Californian called, after making estimated $60,000-$70,000 on our recommendations on 1/2 oz gold eagles. I asked why he didn't renew. He said it was expensive ($180/40 issues).

I told him if someone made me $60,000+ with their info, they'd have to fight me off and wrestle me to the ground to prevent me from continuing to get that valuable info.

STACK'S BOWERS GAVELS OVER $16 MILLION
BALTIMORE SPRINGS WITH SUCCESS

The Market in Depth

Another spring Baltimore Expo wrapped up last week with a buzz of activity from a good crowd of collectors. After the major summer ANA and start of the year FUN, the Baltimore show is now considered by many to be the third most important for dealer business with a possible rival being the spring Central States Numismatic Society show, beginning with PNG day April 18-21 in Schaumburg, Illinois, which is in the Chicago area. Proof Commems had quite an outing in balmy Baltimore. During the Stack's Bowers auction, two Matte Proofs graded PCGS PR64 brought impressive results: a unique Grant with Star hammered for $184,000 and a Maryland example gaveled $109,000. In addition, a Proof Isabella in PCGS PR65 scooped up $40,250. The Stack's Bowers sale brought in a total of over $16,193,000 with a top lot of $287,500 for an 1836 Classic Quarter Eagle, in NGC PR66 UCam. In addition, a "Little Princess" formerly known as a Proof only issue, realized $105,800. This 1841 $2½ specimen, graded PCGS XF45, is now categorized for the first time as a circulation strike.

While business from the public bringing coins and precious metal items into shops to sell has slowed for many dealers, loyal and life-long collectors are now looked at to support business, at least for the present time. Though some customers are expected to back off for the time being because of taxes they owe, others will use their tax refunds to buy coins. Dealers are still finding it difficult to acquire higher end coins at shows and generally rely on their relationships with other bourse dealers. Getting first shot from preferred dealer friends and private meetings where business is done before shows is becoming increasingly important, in addition to scouring bourse floors. While high-end coins are getting lots of attention in the market, there are many categories that are going begging. For example, material that is easily found all over the bourse, especially coins that are average, or below average, for their grades are difficult to sell, and discounting is taking place. Conversely, those with CAC stickers and some with Plus grades are bringing premiums. So this is a time in the evolution of the market in which there are wide price variations for like-kind coins in the same grade. Similarly, high grade CAC stickered Gold coins are scarce, and priced with a strong premium when found, but many vintage generic Gold coins are selling for not much more than their bullion levels. Business in modern coins continues to be an important factor in the hobby; however it's spotty for some dealers. Recessionary influences, the completion of the State Quarters series, and too many coins produced by the U.S. Mint have slowed this area of the market.

David Lawrence Rare Coins completed its Presidential Collection of PCGS Registry Lincoln Cents auction with eBay March 25, totaling $687,300. A few notable examples from the sale include the top lot 1955/55 MS65RD, which sold for $33,100; a 1969 AU58 DDO, garnering $22,600; and a 1916-D MS66RD which brought in $22,327.

This Week's Market

CENTS THRU HALVES: A number of dealers are targeting Lincoln rolls from the 40's, 50's and '70's and will take hundreds of each at Bid. A date run of Jefferson Proof rolls is being offered for a discount resulting in minus signs. Select modern Roosevelt Silver Proofs are needed at higher levels.

MERCURY DIMES: Exceptionally scarce and premium quality Merc material is appearing at auction and show venues with far less frequency than in past months. This market segment is among the most uneventful and quiet of all.

WALKING LIBERTY HALVES: As many as seven late-date Walkers in Gem continued to dribble lower by $5 this week, while Gem 1942-D issues advanced by the same amount. Current Bid support for virtually all early-dates in Mint State remains unshaken.

DOLLARS: 1893-S Dollars in Fine, despite their scarcity, have declined $200 since January. Most Bid adjustments appearing among other Morgans this week are moderately on the downside for a limited number of both better-date and generic issues throughout various Mint State columns. Two exceptions, however, are 1891-CC cartwheels in MS63, gaining ever more appeal with a $50 advance, and those condition scarcity 1900 issues in MS67, making a partial rebound, adjusting up to $7,750. All generic Peace Dollars in MS64 resumed in their trickling descent from last week, still unable to regain that $50 mark. Very Choice 1922-D issues continue to slide down by $10 to consummate a 21% decline since early January.

PROOF SETS AND MINT SETS: Bids for the 1994 and 1998 Silver Proof Sets are up, now at $24. There is still a dealer looking for 400 1970 Mint Sets and has upped the ante from $9 to $9.50. 1996 Mint Sets are Bid at $10 but there is at least one dealer willing to pay $6 for just the "W" Dime as long as it is in the cello.

COMMEMORATIVES: If last week's trading activity for Silver Commems can be described as stormy, this week's results, in comparison, brought about just a bit of mild, residual precipitation as the Iowa in MS65 and Texas Type issues in MS66 each receded moderately. Many issues in grades XF through MS60 are still benefiting from strong Bid support at current levels, while all York issues in XF thru MS63 are Bidding $15 higher. Pan-Pac $50 Round Gold Slugs in MS63 declined $250 after having maintained their Bid at an even $77,000 since last October.

TYPE: Mint State Type saw mixed results this past week in Baltimore, yet remain steady herein. Pre-1858 Proof issues did very well at auction, providing good reason to declare the event a great success. Late-date Buffalo Nickels in PR65 regained $25 of the $100 they lost just before the start of the year, but comparably graded Proof Walkers continue to weaken.

GOLD: Most of the advances posted within the Gold Type segment this week are attributed to a somewhat moderate rise in Gold Spot. After briefly trading below Platinum this past week, Gold Spot is back on top as it has been since September of last year.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a price somewhere above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of [illegible] to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Wash[illegible]gton [illegible] put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

CSNS' 73RD IN SCHAUMBURG
LOCAL LAWS COULD COST DEALERS

The Market in Depth

Business remains stable and steady for many dealers, although quieter than during most of last year when precious metal prices showed more strength. Last year, Gold and Silver were setting new highs and breaking records with regularity, whereas today, volatility has cooled off a bit. High-end material continues to see increased demand, while buying activity remains soft for coins which are usually popular with average mainstream collectors. An oversupply of some collector coins is reported, such as circulated key dates like 1932-D and S Washington Quarters as well as 1938-D Walking Liberty Half Dollars. The reason for this overhang is that many collections of these types have been sold for their Silver value, and dealers have kept the better date examples in inventory. These coins are not retailing to collectors at anywhere near the pace they've been coming in over the counter. Just like many collectors are doing, dealers have been cleaning out slightly better Silver coins that have reached near melt levels as Spot has continued to climb during the past couple of years. These include coins like BU Franklin Halves and slightly better date Silver Dollars including lower grade 1934-S Peace Dollars, normally considered a key issue.

Dealers are warned to be vigilant in monitoring proposed local ordinances regarding second-hand and/or precious metal purchases. If not, one could end up facing a law similar to what's been recently instituted in the city of Madison, Wisconsin. A new city ordinance requires dealers to pay an annual fee of $2,000 for a "Precious Metals Dealer" license. These fees, along with others collected from second-hand jewelry dealers and pawnbrokers, are used to cover the costs of hiring a police analyst and software, called "LeadsOnline," requiring dealers to report items purchased on a daily basis. Dealers are also required to photograph or video all sellers of items included in the ordinance, as well as photographing all items which do not have a unique serial number. A holding period is also required, and ranges from 7 to 30 days depending on the material. For precious metal products, which include all coins made of Gold or Silver, including Gold or Silver numismatic coins of any rarity or price level, the hold is 15 days. A late March coin show was held in Madison, and over a dozen dealers stayed home once they heard this new ordinance would be enforced. One Florida dealer has offered to create a database of these types of existing and proposed laws to keep dealers informed.

Canada is discontinuing their One Cent coin this fall, as several countries have already done. Canadians believe they are losing $11 million a year in manufacturing the coin, estimated to cost 1.6¢ each. Some believe this will lead to inflation as transactions will most likely be rounded up. This week's PCGS invitational show in Vegas will hold dealers over until the big CSNS convention in Schaumburg, IL beginning with PNG Day April 18. The Coin Doctoring Definition Committee will try to reach an agreement with PNG dealers by presenting a revised proposal as to what constitutes coin doctoring.

This Week's Market

MERCURY DIMES: Only a single decline is present for 1930 Merc issues in MS65FB after a solid example sold for a discount at auction Scarcer key-date specimens in Mint State with Full Bands remain elusive and alluring.

WALKING LIBERTY HALVES: Gem 1942-S issues were the only weak link in the Walkers chain, as their Bid descended by $35. Relevant Bids for late-date issues are appearing with less frequency than in the recent past. Solid offers for all early and key-dates in most Mint State grades continue to pour into the marketplace with appreciable numbers.

DOLLARS: While generic Morgan Dollars remain in a sedentary mode, Bids for several better-date cartwheels in Mint State are being elevated further to reflect their higher demand. In addition to the moderate advances posted among CC Dollars in MS63 and MS64, the pursuit for the king of the series, the 1893-S in MS60, drove this issue up this week by over 26% to a Bid of $110,000, an increase of $25 000 since last June. Those other key-date 1894-S issues in Gem, which have been quite dormant for some time, surged by $10,000 in MS67, as a 50% Bid jump is in place to acquire one of only three of these rarities at this grade level with none finer. Other than moderate changes in Bid for 1922-D and 1923-D issues in MS64, Peace Dollars did little to stir up the market.

PROOF SETS AND MINT SETS: One supplier spent over $30K buying this material last week at Bid and is still buying. Quantities of 2008-S Clad Proof Sets are needed and are up 7% with a Bid of $63 while the 2008 Silver Proof Sets are Bid at $62. Mint Sets aren't showing any signs of decline with at least one dealer paying at or near Bid.

COMMEMORATIVES: Trading activity for Silver Commems was less voluminous than in the past few weeks. High grades were particularly targeted, with some of them declining in MS65-MS66 by as much as 16%.The negativity sweeping through the Gold series concentrated itself mostly among $1 issues in MS63, but spilled over to douse down $2½ Sesquicentennials both in MS63 and MS64. Modern Commems remain strong, though one major marketmaker has announced his withdrawal from this segment. $2,700 is the new Bid for 1995-W Proof ASEs with a dealer now offering $12K for an NGC PR70 example.

TYPE: Market participants are Bidding higher to acquire those very rare 1793 Half Cents in Good thru VF, and Wreath Cents in Good thru MS60 are now in such demand that Bidders are anxious to offer an average of 20% more in these grades. XF examples are especially sought-after now at a Bid some 30% higher. Also on the rise are Indian Head Cents in MS63RB, MS63RD, and MS64BN. Two Cent Pieces in MS65RD couldn't hold onto their long held prior Bid as they slipped, just a tad, despite the craze over Coppers. All Proof Type held up well during this week's trading.

GOLD: Even though Gold Spot is down from our last report, generic $2½ Libs in MS62 are up and have made a $45 recovery in four weeks to a Bid of $500. Comparably graded $5 Libs with Motto also forged ahead incrementally for a second straight week, as did $10 Libs with Motto in XF40-AU58 and $20 Saints in MS62 thru MS64.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen** The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels INVESTOR/COLLECTOR NOTE The prices in this newsletter are from Dealer to Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases

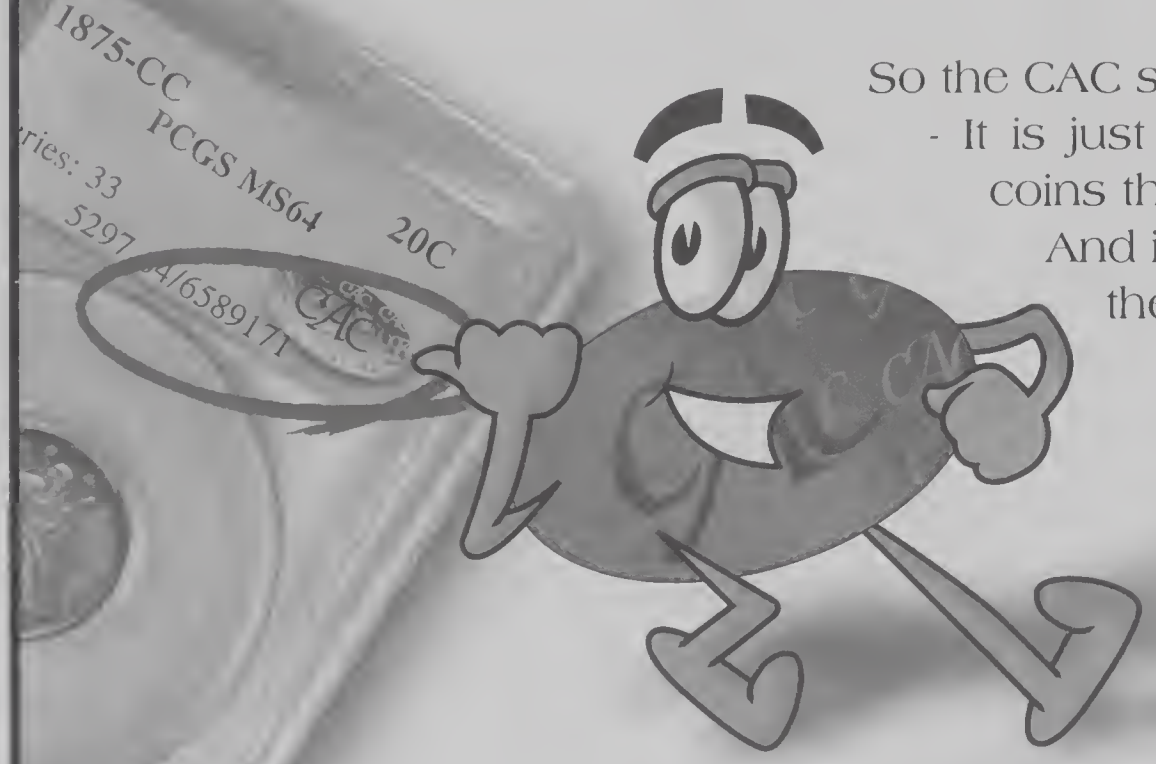
UPDATE!



CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~250,000~~ 350,000 coins with a market value over ~~$1.3~~ $1.7 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$200,000,000~~ $250,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

COLLECTOR COINS STABLE
GOLD TYPE ENJOYS LOW PREMIUMS

The Market in Depth

Investor sentiment for precious metals has eased as the economy firms a little and other financial concerns soften – at least for the time being. However, the European debt crisis remains in the forefront as recognition of this problem spreads beyond the well-publicized Greek situation to other European countries like Spain, Portugal, Italy, and Ireland. Many investors seem to be oblivious to the dangers of this situation to our economy and currency. So, for now, it's a waiting game for bullion business to pick back up again once the next financial crisis emerges. Evidence of this malaise in the bullion markets was exhibited last Wednesday, April 4, as Gold plunged nearly $60 an ounce to reach the $1,612 level, after heading up to just shy of the $1,700 plateau the week before. Early this week Gold has shown signs of at least a little strength for the time being. Silver is off $1.74 from our last issue, while Platinum continues to trade for less than Gold, currently below by $24 an ounce.

Premiums over melt values for vintage U.S. Gold Type remain at historically low levels. As Gold has climbed in price during the past decade, these premiums have drifted in the opposite direction. Examples are: $20 Libs in MS63 and MS64 in which their premiums were well over double the price of Gold three years ago, have fallen to the 10 to 30 percent range; $20 Saint-Gaudens' premiums in the same grades fell to the 5 to 10 percent range, after plunging from the 70 to 90 percent range just three years ago. Of course, $5 and $10 Indians in these grades carry the highest premiums over melt, at multiples of melt values because of their scarcity in these grades, but even these premiums have been sliced to a fraction of what they were between five and eight years ago – how about well over 2,000 percent for MS64 $5 Indians to near 600 percent now? One important question is: Who's collecting this material now and into the future after Gold has risen so dramatically in price? The ultra-high grades and rarities are a different market however, as the well-to-do continue to collect and compete in price to acquire these top-dollar scarcities.

Similarly, recent auction results show that the coin market has been stable for the past two years for fairly ordinary coins of nearly all metals and denomination in the mid to high Mint State grade range, while the crème-de-la-crème coins have been fought for at auction, resulting in higher prices. This trend confirms dealer experiences that after the financial meltdown of fall 2008, collectors backed off spending and many prices fell. It took almost a year for collectors to feel comfortable letting loose of cash again for collectible coins, when normal buying habits resumed during fall 2009. Obviously auction results have shown prices bouncing around between higher prices for nice coins of a grade and low prices for average to sub-standard coins for given grades. Most of the show circuit dealers will be attending the CSNS show and auction in Schaumburg, IL April 18-21. Much of the numismatic fraternity will return to the area to attend the 37th annual Chicago International Coin Fair, April 26. Taking place over the same weekend is the Michigan State Numismatic Society's show, April 27-29.

This Week's Market

CENTS THRU HALVES: Silver Dimes and Quarters soften to a lower Spot. Clad Kennedys get props as dealers maintain and raise Bid for many dates, with one dealer having sorted through 170,000 Halves and needs more.

MERCURY DIMES: Heritage's Schaumburg auction events are due to conclude next week, and among the top Merc entrants expected to fetch prices in the five and even six-figures are three PCGS graded specimens: a 1916-D in MS65FB, a 1919-D in MS66FB approved by CAC, and a 1928-S in MS67FB.

WALKING LIBERTY HALVES: Walkers appear to be taking another mid-month reprieve from the trials and tribulations of a continually volatile market. Despite the extensive amount of discounting activity engulfing generic Walkers these past few weeks, those late-date Gem issues with CAC approval continue to fare very well with on-line Bidders, as did a 1946-D grading NGC MS67, selling for $1,380 through Teletrade this past weekend.

DOLLARS: A second straight week of regaining recently lost ground for 1879-CC Dollars in MS64 hrings their Bid back up to just $100 shy of where it stood at the beginning of the year, as the Morgan series as a whole remains relatively quiet. 1886 and 1899-O cartwheels are the only issues in Gem to encounter the effects of residual market weakness within this segment, the former issues pulling back by 7%, while 1921 P, D, and S-Mint Morgans in VG and Fine joined in with several Peace issues in those grade columns for a moderate descent in reaction to a lower Silver Spot.

PROOF SETS AND MINT SETS: Silver Proof Sets from 1961 thru 1964 have taken a dip along with Spot and are now at $23.50 Bid. 2008-S Clad Proof Sets are even hotter this week with a buyer still looking to pick up 80 sets at a Bid of $65. Mint Sets are showing a positive with the 2009 36-piece set now up to $22.

COMMEMORATIVES: Bids for Huguenot Halves in MS64 and 1936-D San Diego issues in MS65 each receded by $10, but that was the extent of the fluctuations brought on by this week's trading. 1916 McKinley Gold Dollars, often recognized as the least costly of all the Gold Commem issues, are 10% lower now in MS66, thanks to persistent discounting.

TYPE: Liberty Cap, Coronet, and Braided Hair Large Cents all continue to benefit from a market that's been exuding upward pressure on virtually all Copper Type material. Bronze Indian Head Cents and Two Cent Pieces in MS64RB are also gaining strength. Heraldic Eagle Draped Bust Quarters in Fine thru MS60 are becoming increasingly appealing to collectors and are now all sought-after at higher Bids, with the lowest graded Mint State issues advancing $600. Shield Nickels with Rays in PR65 and Mercury Dimes in PR63-PR64 are looking stronger as well.

GOLD: With Gold Spot gravitating back down below the $1,650 per ounce level, there can't be much expectation of any generic Gold Type material to avert the preponderant downside pressure prevailing within this segment. This market softness, however, has not been discouraging the low pop, scarce-date, and condition rarities from appearing at the auction blocks, such as the 1894 $2½ Liberty in MS65 approved by CAC, and a Bass pedigreed 1908-S $5 Indian of comparable grade, both of which are certified by PCGS and will be offered via public auction in Schaumburg next week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen** The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of the rolls in the late [illegible] tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington [illegible] dull or [illegible] together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

DEALERS DESCEND ON SCHAUMBURG
BUSY SPRING SHOW SCHEDULE

The Market in Depth

This week the numismatic community has converged in Schaumburg, Illinois, a suburb of Chicago, for the 73rd anniversary convention of the Central States Numismatic Society, founded in 1939. A well attended and busy show is highly anticipated, especially after the successful ANA convention in the Chicago area last August, which was believed to have been the largest coin show ever held anywhere. Many agree that the CSNS show has long been second or third in importance to the ANA. At this CSNS convention, Heritage is again conducting a Platinum Night sale in conjunction with their Signature auction. Bidding on the 1792 Silver Center Cent pattern has already exceeded $1 million. The CSNS convention brings out top collectors and dealers from around the country who normally only attend two or three major shows during the year.

While die-hard collectors continue to participate in the hobby, many collectors have recently retreated for economic reasons, including tax season, and the sentiment among some dealers has been a growing concern that coin collecting in general has been in a waning phase, except for the high end of the market and the modern area. While pre-20th Century Gem material has been difficult to find in order to augment high quality inventories, many dealers are watching their stock of common coins grow as buyers are becoming scarcer for this material. Adding to this trend are coins that are not Plus graded or CAC stickered that are strictly avoided by some buyers – although this shake-out is in its early stages, similar to an older trend of raw versus slabbed coins. CAC has had their busiest month ever with approximately 11,000 coins submitted in March. Having been in business for 4½ years, CAC has stickered 45% of the 345,000 slabs they've received from their 950 members.

Today there are many more diversions to capture the attention of young people than the Baby Boomers and their parents had, so coin collecting was an activity that was higher on their list than for today's younger generation. Coin collecting turned into an investor dominated market during the 1970s and early 1980s, and then slowly re-established itself as a collector market during the 1990s and 2000s. Some see a heavier investor influence returning to the market, given concerns over the global debt crisis and expectations of high inflation.

The South African Mint Company has admitted that some Proof Krugerrands, minted during April and May, 2011, do not meet "required quality specifications" and are underweight. Dealers should also be aware of fake 2011 Silver Maple Leaves in capsules discovered in the Seattle area which are Silver plated brass, heavy by 1 to 1.5 grams. Additionally, counterfeit Pandas in bogus NGC holders have made their way into coin shops in the state of Washington. Dealers are looking forward to the Chicago International Coin Fair, scheduled for April 26-29. Over the same weekend, the Georgia Numismatic Association Rare Coin Show will take place in Dalton, Georgia. Next up is the Early American Coppers convention and sale May 3-6 in Buffalo, New York.

This Week's Market

MERCURY DIMES: At least ten super pristine and key-date Mercs will be appearing before an expectedly enthusiastic crowd at Heritage's Chicago Platinum Night Auction this week, the highest graded specimen among them being a 1928-S in PCGS MS67FB, one of only eight graded as such with none finer.

WALKING LIBERTY HALVES: Only two Gem Walkers were adjusted a bit this week as 1934 D issues fell from their long held Bid of $1,200 with a $30 decline, while 1941-S examples lunged ahead to regain $25. Four NGC graded 1921-S Walkers, two in MS64, one in MS63, and one grading AU58 with CAC approval, are among the closest watched lots getting ready for the grand finale in Chicago.

DOLLARS: Most generic and better-date Morgan and Peace Dollars seem to have found a level of sustenance, neither retreating nor making any dramatic strides forward, with Bidders providing widespread support at current levels. Among the exceptions are first year of issue S-Mint Morgans in MS65 and MS66, as those of the latter grade managed to break through the $600 mark, and perhaps most significant is that 1921 Morgans in MS65 are back up to Bidding at $150 but are still 14% below their previous high of late last summer. The gap between Bids for PCGS and NGC generic Dollars is widening, especially in Gem.

PROOF SETS AND MINT SETS: Bids for 1960 thru 1964 Proof Sets are up to $25 this week. A few of the Clad Quarter Proof Sets have increased by 25¢. 1976 3-Piece Silver Mint Sets have fallen to a Bid of $17.50. One major supplier is still looking to buy 10,000 Proof Sets a week from 1968 thru 2010 at Bid.

COMMEMORATIVES: The moderate gains posted for Pan-Pac Halves in MS63 and MS64 were greatly overshadowed by another overall dampening outcome within this segment as Bay Bridge and Norfolk issues in Gem head south, realizing a decline of up to 10%. Roanokes in AU thru MS65 are capitulating to yet more of the stresses of discount wholesale trades and weak auction performance. A 1937-D Texas PDS Set graded PCGS MS66 and approved by CAC sold at retail auction for $720, while dealers are Bidding $750 for a full grade lower.

TYPE: Liberty Seated Quarters with Motto in MS65 and Trade Dollars in MS63 each missed their current Bid targets by slight margins. Type III 3¢ Silvers are up to as much as 10% higher in grades Good through XF. One dealer is looking for 200 Racketeer Nickels in VF-XF.

GOLD: Since Gold Spot didn't really deviate much from last week's level, most generic Gold Type sits as it had since then. However, Type II Gold Dollars in MS64 and MS65 are seeing a revived popularity, as those of the former grade recovered nearly their entire loss since the end of last August with a $950 bounce back, while Gem issues ascended by $1,750. Unfortunately, $20 Saint-Gaudens in MS65 had trouble firming up along with their peers in MS62 thru MS64.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within.
